

Muhammad Abid

Software Engineer & Penetration Tester

Peshawar, Pakistan

muhammadabid2120@gmail.com

Profile

Software Engineering student with strong focus on cybersecurity, penetration testing, and secure software development. Experienced in identifying vulnerabilities in web applications and networks using industry tools. Passionate about building secure, scalable systems and continuously learning advanced offensive and defensive security techniques.

Key Skills

- **Programming:** Python, SQL
- **Security:** Penetration Testing, Vulnerability Assessment, Network Scanning
- **Tools:** Burp Suite, Metasploit, Nmap, Wireshark
- **Concepts:** Web Security (OWASP Top 10), Malware Analysis, Networking

Projects & Experience

Web Application Security Testing

- Performed vulnerability assessments on web applications using Burp Suite and manual testing techniques
- Identified security flaws including XSS, SQL Injection, and authentication weaknesses
- Provided mitigation strategies to improve application security

Network Scanning & Enumeration

- Conducted network scanning using Nmap to identify open ports and services
- Analyzed network traffic using Wireshark to detect anomalies

Malware Payload Analysis

- Created and analyzed basic payloads for understanding attack vectors
- Studied detection mechanisms and evasion techniques

Education

Bachelor of Software Engineering

(2022 – 2026)

Institute of Management Sciences, Peshawar **FSc (Computer Science)**

(2020 – 2022)

Government College, Peshawar **Diploma in Information Technology**

(2021 – 2022)

Corvit Systems, Bara

Certifications

- 6-Week Cybersecurity Training – ShadowSec
- Cisco Certified Ethical Hacker (CEH)

Achievements

- Developed strong practical foundation in ethical hacking and cybersecurity tools
- Built personal portfolio showcasing technical projects and skills
- Continuously learning advanced cybersecurity techniques and real-world attack simulations
